

Women's & Children's Services

Obstetrics & Gynecology Department

Djina Ariel, CNM | My work concerns well-women obstetrics and gynecology with emphasis on safe, gentle and empowering childbirth, breastfeeding support and education.

Sharon Demeter, CNM | I have a special interest in helping my patients through the emotional and psychological aspects of pregnancy and birth, birth as a rite of passage, and post-partum depression.

Cathy Jang, MD | I provide obstetrics and gynecologic care to women of all ages. I have special interests in obstetrics, teenage health and urinary incontinence.

Linda Johnson, NP | My work focuses on women's healthcare. I see all of our pregnant patients for one of their first visits. I can also do annual gynecological and other non-urgent appointments for women of childbearing age.

Joahna Padilla, MD | I enjoy providing complete medical and surgical care in all aspects of gynecology and obstetrics to help prevent, identify and treat health and medical issues that face today's women. My goal is to educate and counsel women so that they may actively participate in the decision-making process regarding the management of their current conditions.

Kim Sterner, CNM | I provide midwifery care to women during their pregnancies, births, and the early postpartum period. My focus is on providing holistic, empowering healthcare to women and their new families.

My-Le To, DO | My focus is on general obstetrics and gynecology with a special interest in gestational diabetes, minimally invasive surgery including laparoscopy, hysteroscopy, ablation, and midurethral sling for urinary incontinence.

Rebekah Wheeler, CNM, MPH | The focus of my work includes well-woman care, prenatal care, normal labor and birth and contraceptive counseling.

George Wong, MD | The focus of my work is obstetrics and gynecology with special interest infertility and laparoscopic surgery.
